ABOUT ME

Hi! I am a computer science enthusiast – my interests and passions are in WEB development and also Data Science and ML.
Highly motivated to apply all of my best skills and knowledge to the IT industry, since the war destroyed my small business. Ready to start from entry-level position

My Pros:
- Fluent in spoken and written English,
- High analytic skills and team working
- Highly motivated and constantly learning
- Extremely persistent to accomplish a task

My Cons:
- No official job experience in the IT industry

Core Skills:

solid basic **JS, React JS, Python**
familiar with **Angular**, G**raphQL, Pandas, AWS Practitioner, Firebase, Apache Spark, MindMeld**

Practical projects

Angular – achasnyk.gitlab.io/convertor/
React JS – https://uzhgorod-first.web.app/
Conversational AI bot on MindMeld **Python** – (GitHub repos)
